

## LIST OF FIGURES

### Chapter 1

<b>Fig. 1.1</b>	Stages of Solar PV's Life Cycle	2
<b>Fig. 1.2</b>	Working of Solar Cell	2
<b>Fig. 1.3</b>	Types of Solar Cell	3
<b>Fig. 1.4</b>	Market Share of PV Panels	5
<b>Fig. 1.5</b>	Three Tier Approach to Estimate Solar PV Panel Waste	6
<b>Fig. 1.6</b>	Solar PV Installations from 2015-2050	6
<b>Fig. 1.7</b>	PV Panel Waste Model	7
<b>Fig. 1.8</b>	PV Waste from 2016-2050 in North America Region	8
<b>Fig. 1.9</b>	PV Waste from 2016-2050 in Middle East Region	8
<b>Fig. 1.10</b>	PV Waste from 2016-2050 in Latin America & Carrabian Region	9
<b>Fig. 1.11</b>	Methodology of Research Work	13
<b>Fig. 1.12</b>	Methodology for Policy Framework	14

### Chapter 3

<b>Fig. 3.1</b>	Outline of Life Cycle Assessment	44
-----------------	----------------------------------	----

### Chapter 4

<b>Fig. 4.1</b>	Intrinsic % c-Si Component Proportion	53
<b>Fig. 4.2</b>	Mechanical Method	54
<b>Fig. 4.3</b>	Thermal Method	54
<b>Fig. 4.4</b>	Chemical Method	55
<b>Fig. 4.5</b>	System Boundary in Recycling	59
<b>Fig. 4.6</b>	Centralized & Decentralized Recycling Scenario	60
<b>Fig. 4.7</b>	PV Recycling Process for c-Si Module	63
<b>Fig. 4.8</b>	CdTe Recycling Module Process of First Solar Recycling Company	63
<b>Fig. 4.9</b>	CdTe Recycling Process of ANTEC Solar GmbH Recycling Process	63
<b>Fig. 4.10</b>	PV Recycling Process for Si Module of Solar World	64
<b>Fig. 4.11</b>	PV Recycling Process for Si Module of NEDO	64
<b>Fig. 4.12</b>	Hot Knife Recycling Process for c-Si Module	64

<b>Fig. 4.13</b>	Loser Chemie Recycling Process of Different PV Modules	64
<b>Fig. 4.14</b>	Emission & Transport Scheme	71
<b>Fig. 4.15</b>	Effects on Health Due to Solar Photovoltaic Materials	72
<b>Chapter 5</b>		
<b>Fig. 5.1</b>	BSDU 160 kW Grid Connected Solar Power Plant	81
<b>Fig. 5.2</b>	End Life Cost Analysis of 160 kW Grid Connected Solar Power Plant at BSDU	86
<b>Fig. 5.3</b>	Mass Fraction of the PV Module in 1 Ton of Crystalline Si PV Module	86
<b>Fig. 5.4</b>	Mass Fraction in Panels of BSDU 160 kW Solar Rooftop Plant	87
<b>Fig. 5.5</b>	Recovered Mass from Panels of 160 kW Grid Connected Plant in BSDU	88
<b>Fig. 5.6</b>	Recovered Amount of Material from Panels of 160 kW Grid Connected Plant in BSDU	88
<b>Fig. 5.7</b>	End Life Liabilities	91
<b>Fig. 5.8</b>	Schemes to Tackle Cost Breakup for PV End Life Management	92
<b>Fig. 5.9</b>	Various Approaches to Tackle PV Waste	94
<b>Fig. 5.10</b>	Outline of Proposed Solar PV Recycling for Indian Scenario	95
<b>Chapter 6</b>		
<b>Fig. 6.1</b>	Attributes for the Management of the Waste Across the World	101
<b>Fig. 6.2</b>	Fundamental Obligation for WEEE Legislatives	102
<b>Fig. 6.3</b>	Principles to Focus on Extended Producer Responsibility	112
<b>Fig. 6.4</b>	Fate of Solar PV Modules at their End of Life	118
<b>Fig. 6.5</b>	Overall Indian Management Approach of Waste Solar PV Modules	119
<b>Fig. 6.6</b>	Drivers Responsible for EoL Management of PV Modules by Relative Framework	120
<b>Fig. 6.7</b>	Proposed Solar Recycling Policy for Indian Scenario	123
<b>Fig. 6.8</b>	Committees to Tackle End Life Management	133
<b>Fig. 6.9</b>	VVCR Analysis: Indian Solar PV Waste Management Regulatory Framework.	135

## LIST OF TABLES

### Chapter 2

<b>Table 2.1</b>	Comparison of Photovoltaic Materials	34
------------------	--------------------------------------	----

### Chapter 4

<b>Table 4.1</b>	Intrinsic CIGS & CdTe Component Proportion	53
------------------	--	----

<b>Table 4.2</b>	Comparative Analysis of the Thermal, Chemical and Mechanical Method	55
------------------	---	----

<b>Table 4.3</b>	Silicon Solar Modules Recycling Processes	56
------------------	---	----

<b>Table 4.4</b>	Thin Film Solar Modules Recycling Processes	57
------------------	---	----

<b>Table 4.5</b>	Potential Toxicity of Materials Utilized in Solar Photovoltaic Panels	67
------------------	---	----

### Chapter 5

<b>Table 5.1</b>	Mechanical Properties of 320-Watt Anchor Panasonic Solar Panel	82
------------------	--	----

<b>Table 5.2</b>	Input & Output Side Technical Data of the ABB Inverter	83
------------------	--	----

<b>Table 5.3</b>	Data for 160 kW BSDU Solar Photovoltaic Plant	83
------------------	---	----

<b>Table 5.4</b>	PV Watts Monthly PV Performance Data of BSDU Plant	84
------------------	--	----

<b>Table 5.5</b>	Actual Monthly Data from 160 kW BSDU Solar Photovoltaic Plant	85
------------------	---	----

<b>Table 5.6</b>	Material Composition after Recycling	89
------------------	--------------------------------------	----

<b>Table 5.7</b>	Composite Material Costing after Recycling	89
------------------	--	----

<b>Table 5.8</b>	Transportation Expense of Solar Panels at their EoL to the Supplier	90
------------------	---	----

### Chapter 6

<b>Table 6.1</b>	Waste Codes Relevant to PV Panels from the EU Waste List	100
------------------	--	-----

<b>Table 6.2</b>	Solar PV EoL Management Strategies across the Globe	108
------------------	---	-----
